## Ore

The name Ore is a direct reference to the KiBiSi design process. By cleaning out superfluous details, Bulbul has whittled down their latest watch to its core. It leaves a timepiece stripped of ornamentation and taps into watch design's essential ore: looking to the future while respecting craft-based heritage. The 316L steel case holds a Swiss Made, gold-plated, four jewels Ronda Movement with up to ten years battery life. Measures 39 x 8 mm and is water resistant to 3ATM.
